DISEASES, INJURIES  
AND SURGERY OF  
THE FOOT AND ANKLE

4 December 1984

R. Raymond Green, M.D.  
Chief of Staff  
Wasatch County Hospital  
45 S. Main Street  
Heber City, UT 84032

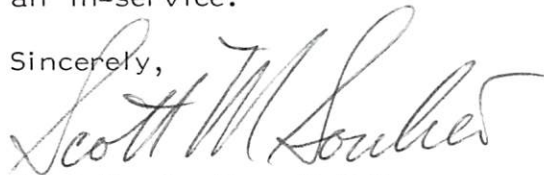

Dear Dr. Green:

We understand from our legal counsel that Wasatch County Hospital takes the position that our recent informal hearing regarding our application for privileges and the subsequent denial was final and that we have no further appeal mechanism. We do not necessarily agree with that position, but in spite of our disagreement, we want to pursue a course that will insure our acceptability for staff privileges two years from now when we will be eligible to re-apply.

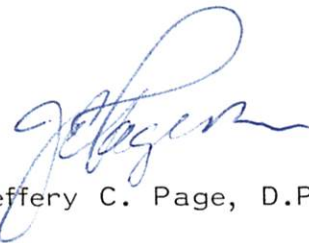

As we understand the hospital's bylaws, when we re-apply, we will be expected to provide evidence that the reason for the original denial has been remedied. Since the reason for our denial was that the staff at Wasatch County Hospital is not "qualified to evaluate and proctor the quality of podiatric care given to the patients in our hospital", then we want to provide in-service training to the members of the staff so they will become so qualified.

Please respond to this request by informing us when we can arrange such an in-service.

Sincerely,

Scott M. Soulier, D.P.M.

Jeffery C. Page, D.P.M.
